of Newfoundland and Labrador

WOODEN BOAT MUSEUM OF NEWFOUNDLAND AND LABRADOR

Report of Activities 2014 - 2015

Message from Chairman of the Board

Frank French

I am proud to once again have the privilege of introducing the annual Report of Activities for the Wooden Boat Museum of Newfoundland and Labrador. As you read through the various committee reports, it is evident that the Organization has had another very successful year.

We have continued to focus on maintaining partnerships with other organizations and businesses as well as establishing new ones. Our funding arrangements with ACOA and IBRD expired at the end of July and we were successful in obtaining further funding to December 2017. We continue to work toward self-sustainability, but the support of these funding partners is critical in our continuing project work throughout the Province.

Revenue generating partnerships with Twillingate Island Tourism Association for the lease of our exhibit “*Before Fibreglass – The Wooden Boats of Newfoundland and Labrador*” at Long Point Lighthouse, and the arrangement with the Trinity Historical Society for establishment of an exhibit, as well as a pilot workshop program, continue to be solid relationships that benefit all parties involved.

This year brings to an end my four year term for as Chairman of the Board of Directors. I wish to thank my fellow Board members, volunteers and staff for their dedication and hard work which made my job much easier and the Museum much more successful. Member and corporate support has also been nothing short of outstanding. While the Museum has a bright future, the coming year will no doubt have its challenges; as always, revenue generation will be a priority as well as continued efforts to fine tune present programs along with developing others. We are very excited about the planning efforts toward an international conference next year in Trinity, our documentation and workshop programs, and some pending partnerships to name a few.

Please take some time to review the information outlined in this document to help you appreciate the successes of our Organization as we reflect on our motto “Look Aft and Learn”.

Message from Treasurer of the Board Wallace Pinhorn

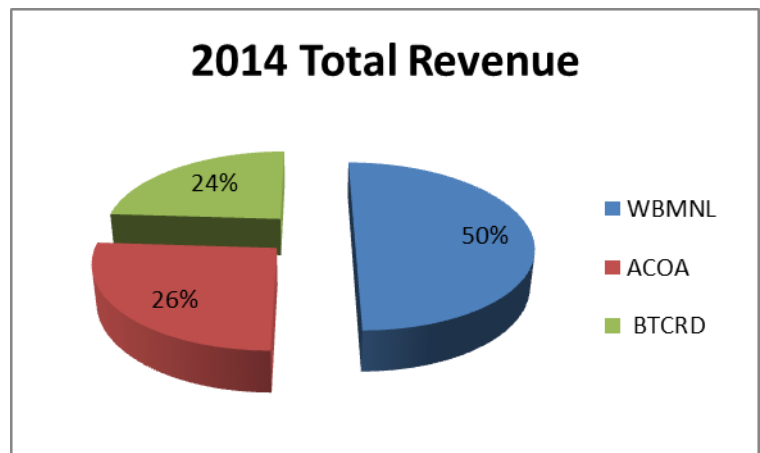

On behalf of the Board of Directors of the Wooden Boat Museum of Labrador Inc. (WBMNL), I am pleased to provide the financial report for the Fiscal Year 2014.

Revenues from Project contracts with ACOA and BTCRD and from Museum activities and programs allowed WBMNL to: conduct boat building workshops at Winterton; continue with displays and partnerships with The Trinity Historical Society (THS) and The Twillingate Isles Tourism Association (TITA), market at Trade, Marketing and Heritage Shows; develop preliminary plans for its *Trinity Seduction* Capacity Building Conference at Trinity in 2016; sponsor a visit by our boat builder, Jerome Canning, to Spain to participate in the San Juan replica rebuild, continue Boats and Builders documentation for its Wooden Boat Field Guide; and continue with its Annual Conference and Quarterly Newsletter. In addition, our partnership with the Town of Winterton allowed the operation of the WBMNL Museum at Winterton for the 2014 Tourist Season.

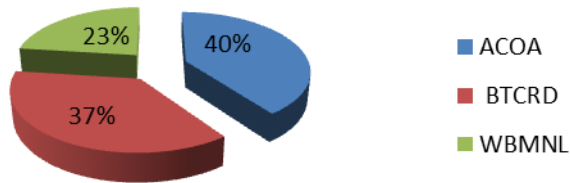

The charts below show categories of **Revenue, Project Funding and Expenses** for 2014.

Total Revenue for 2014 was \$335,000. WBMNL accounted for 50%, ACOA Funding 26% and BTCRD Funding 24%.

WBMNL's *Only a Boat* fundraiser accounted for 36% of its contribution to revenue.

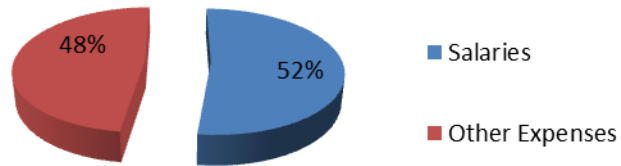

2014 Project Funding

Project Funding for 2014 was \$217,000. ACOA’s Innovative Community Fund (ICF) provided 40%; BTCRD’s Regional/Sectorial Diversification Fund (RSDF) provided 37%; WBMNL provided 23%.

Total Expenses for 2014 were \$323,000. WBMNL Salaries were 52%, and Other Expenses 48% of the Total.

2014 Total Expenses

Project contracts with ACOA and BTCRD were completed in July 2015. New Project funding contracts have been negotiated to December 2017. In addition, funding contracts have been finalized for the *Trinity Seduction* Capacity Building Conference at Trinity in 2016. These contracts require WBMNL to contribute a minimum of \$160,000 as its 20% share of eligible project costs. The WBMNL Board and Museum Friends must focus on Revenue Development in order to meet these financial commitments. These efforts will allow the Museum to continue developing and delivering on its Mission and Objectives.

Audited Statements for WBMNL are shown within this Annual Report.

The Museum in Winterton

Jeremy Harnum, Manager

Funding for the operation of the Museum in Winterton is received from Department of Tourism's CEDP Operational Support and supplemented by Museum admission fees, merchandise sales, workshops and donations. Our 2014 staff included a Museum Manager and Assistant Manager; three post-secondary students - a Museum Programming Assistant, a Chief Interpreter and Naval Architect Student, all funded through the Young Canada Works Program; four secondary students as Interpreters and Tour Guides through Canada Summer Jobs and one student through Provincial Summer Student Program.

We officially opened the Museum on June 23rd. Our total number of visitors was 1817, an increase of approximately 25% from 2013. The Museum was open for 10 weeks and we averaged 181 people per week during that time.

Nine artists participated in our Artist in Studio Program in July and August, demonstrating their various styles of art, including rug hooking, painting, wood carving, and traditional music.

Feedback from tourists was positive and we wish to thank the following artists for volunteering their time

- Kevin Coates – Wood Carving
- Monica Hindy / Marjorie Powers / Doris Harnum – Knitting
- Rhoda Hedd – Rug Hooking
- Florence Pinhorn – Painting
- Melvin Green / Randy Pinhorn – Music
- Jeanette Jobson – Painting

On August 2nd, the Museum hosted Melvin Green's CD Launch – *Ireland's Eye*. Melvin has been a volunteer with the Museum since its beginning and we were pleased to host this event with his family and friends. The Museum was filled with 175 people who enjoyed an afternoon of great music! A portion of CD sales at the Museum is being donated to the Museum. We wish to thank Melvin for his continued support and dedicated volunteer work at the Museum.

Full-guided tours were returned to the Museum programming this year. Our experienced tour guides provide the visitors with a more personal experience and the response from visitors has been overwhelming.

Workshops continued throughout the summer season with the implementation of three levels of adult workshops and a weekly children's workshop.

With the hard work and determination of our board, staff and volunteers, we have once again enjoyed a successful year. Our ongoing work allows us to celebrate and preserve our wooden boat history - while sharing our past with visitors from all over the world. With a drive and vision that continues to grow, we are striving for an even more successful season in 2015!

The poster features a scenic background of a lake with a boat. It includes a photo of Melvin Green playing an acoustic guitar and a photo of a boat on the water. Text on the poster includes the title 'Ireland's Eye', the event details 'CD Launch Saturday, August 2, 2014 2:00-4:00 PM', and the location 'Wooden Boat Museum of NL, Winterton, NL'. It also contains a paragraph of text explaining the event and a small logo for the museum.

Ireland's Eye
Original Songs And Recitations
By Melvin Green

CD Launch
Saturday, August 2, 2014
2:00-4:00 PM
Wooden Boat Museum of NL, Winterton, NL

The Wooden Boat Museum of NL is honored to host this event in celebration of the release of Melvin's first CD. Melvin is one of the founding members of the Winterton Boat Building and Community Museum and a driving force behind the creation of the Wooden Boat Museum of NL. Join us, along with his family, for an afternoon of "Music & Friends". Melvin is donating a portion of his CD sales to the Museum.

Wooden Boat Documentation Committee

Crystal Braye, Folklorist

Our 2014 Documentation Program has been focused on Twillingate and Trinity. In Twillingate, WBMNL partnered with the Heritage Foundation of Newfoundland and Labrador to offer workshops that taught community members the process for lifting lines from boats and how to collect oral histories. Crystal Braye and Naval Architecture intern Lois Bragg spent time in June and August speaking with boat builders and documenting wooden boats in the area. This information will be archived on Memorial University Digital Archives Initiative (DAI) and will be shared with the Isles Wooden Boat Building Committee in Twillingate and used to create future exhibits, pamphlets and content on our website.

As part of WBMNL's new partnership with Trinity Historical Society, Crystal Braye and Bruce Whitelaw developed four new museum panels focused on historical boat building activities in Trinity. These panels were the first to be added our Chapter 2 exhibit in Trinity, with more scheduled to be added for the 2015 season. Crystal Braye and Lois Bragg spent time in Trinity documenting boats and speaking with boat builders and fishermen. The information collected will be used to further develop Chapter 2 of our Wooden Boats of Newfoundland and Labrador story, and will also be added to the Boats and Builders website and Memorial's DAI.

Further documentation work was done in New Bonaventure with fisherman and boat builder Lance Short, including the documentation of a reconstructed local boat. The audio files, photos, and videos have been indexed and will be added to the DAI. This material was used to create new interpretive panels for our exhibit in Trinity.

Over the winter, documentation efforts were focused on the development of our new exhibit: *They Came for the Fish and Stayed for the Stages* now on display at the Museum in Winterton. Based on information collected from late Winterton resident Raymond W. Parrott, interviews with community members and archival research, this exhibit explores Newfoundland and Labrador's salt cod fishery through a look at the stages and flakes that supported this way of life for generations.

Wooden Boat Building Workshop Committee

Jim Dempsey, Chair

In 2014, the Museum introduced three levels of workshops, each level increasing in duration, material and skills developed.

Level 1 – Intended for the casual visitor to the museum who would like the opportunity to experience some of the satisfaction of traditional boat building as part of the overall museum visit to Winterton and Trinity.

Workshops were offered on Tuesdays and Wednesdays from 1:00 – 4:00 PM throughout July and August in Winterton and Trinity. Session topics included:

- Stem and Keel
- The Mould
- Timbers
- Planking

Level 2 – Intended for the enthusiast who has some carpentry experience and would like to learn more about boat building but does not have the time to commit any more than one Saturday at a time. Level 2 workshops included:

- 16' Grand Banks Dory Assembly
- 14' Fogo Island Punt – Components Overview (Use of NL punt; Similarities in design of a punt; details of construction and joinery of the parts)
- Timbers
- Timber in the Woods
- Make and Break Engines (Winterton and Trinity)

Level 3 – Intended for the enthusiast who is looking for an intense and comprehensive experience in learning the skills and techniques in traditional boat building. In the weeklong sessions, participants will receive a comprehensive review of all of the skills and techniques required for building a round-bottom Newfoundland punt or build a complete Grand Banks dory. Two week long workshops were held in 2014

- Building a 16' Grand Banks Dory
- 14' Fogo Island Punt – Components and Techniques

Children's Workshops - The Children's Workshop offers hands-on learning and each child leaves with their own hand-crafted model boat. A trip to the brook before they

leave to test their boats is the highlight of their day. These workshops were held each Thursday during July and August in both Winterton and Trinity.

In February and March, 2015, WBMNL Master Boatbuilder Jerome Canning travelled to Pasaia, near San Sebastian, Spain to participate in the construction of a replica of the *San Juan*, a 16th Century Basque Whaler that sank in Red Bay Labrador in 1565 and was investigated *in situ* and documented by Parks Canada from 1978-1985. The project has been undertaken by Albaola, a Basque Maritime Heritage Organization with similar interests to WBMNL in the preservation of boat building traditions.

While in Spain, Jerome learned much about traditional ship design and ship building skills and materials. In addition to hands on construction activities, he was exposed to the local maritime culture and made day trips to witness the harvesting and milling of boat timber, the production of natural pine tar sealants, and the forging of local iron into fastenings for the San Juan. With his co-workers, Jerome was exposed to the rich social culture of the region.

Near the end of the visit, WBMNL Director Jim Dempsey joined Jerome in Spain to view the construction project and to meet with Albaola personnel. Jim and Jerome then travelled to Brittany to visit to other traditional boat building centres in Europe. The south coast of Brittany is a significant centre for maritime heritage, the fishing industry, and boat building. Their visits in this area included:

- Skol ar Mor (School of the Sea) the traditional boat building school in Mesquer (between Nantes and Vannes);
- A meeting with M. Jean Louis Dauga, a maritime heritage advisor to the French government whose responsibilities include St. Pierre and Miquelon;
- Port Musee de Douarnenez;
- Chantier Tanguy, a commercial boat yard specializing in wooden fishing vessels;
- Les Ateliers de l'Enfer, a fisheries and maritime studies college with a traditional wooden boat building program;
- Federation Regionale Pour la Culture et le Patrimoine Maritimes
- Musee de la Peche in Concarneau.

Special Events

Conference 2014 – Petty Harbour – Maddox Cove, NL

The 7th Annual Wooden Boat Conference was held in Petty Harbour Maddox Cove on September 5-7th, 2014. The event began on Friday morning with a Fishing Skills Demonstration by local fishers, followed by a luncheon at Chafe's Landing.

Again this year, we held our Boats in the Harbour event. It was a beautiful sunny day for a spin around the harbour and the sound of the putt putt engines filled the air.

Saturday's sessions began with a presentation from Dale Jarvis (NL Heritage Foundation). The Heritage Foundation, in partnership with the Wooden Boat Museum of NL, held a four day workshop "Fishing for Folklore" leading up to the conference. Dale's presentation gave a recap of what the workshop attendees learned during their stay in the Town.

Crystal Braye, WBMNL Folklorist, gave a report on the Gander River Boat Documentation project which took place at Glenwood and Appleton in 2013. The entire collection can be found on our website www.woodenboatnl.com under the Boats and Builders tab.

"The WBMNL needs you" was the message relayed by Bruce Whitelaw – chair of the WBMNL's Capacity Building Committee. Our Capacity Building Project will lead up to "A Trinity Seduction" – a three day event to be held in Trinity in October, 2016. Details regarding the event will be available in September, 2015.

Alf Manual (Boat Builder - Twillingate), Jerome Canning (WBMNL Boat Builder), Jonathan Collett (WBMNL's youngest member), Charlie Donnelly (Make & Break enthusiast - Heart's Delight) and Darryl Chislett (Model Maker – St. John's) participated in our Boat Building Demonstrations this year.

The afternoon sessions began with a presentation by Kimberly Orren – Fishing For Success. Fishing for Success, Inc. is a non-profit community of fisher men and women, concerned citizens, educators and youth dedicated to the preservation, celebration, and transmission of traditional fishing knowledge and culture that sustained generations of Newfoundlanders and Labradorians. For more information visit their website at www.islandrooms.org.

Jerry Dick updated us on the progress of the San Juan Replica project taking place in Pasaia, Spain. The afternoon sessions ended with a presentation by Neil Burgess (President – Shipwreck Preservation Society of NL) “Wooden Ghosts: Exploring Shipwrecks of Conception Bay”.

Our conference concluded with the Conference Dinner and Kitchen Party. During the Conference Dinner, Melvin Green was recognized for his 19 years of dedicated volunteer service with the Museum. Melvin was named a Founding Father of the Wooden Boat Museum of NL and made the 3rd Honorary Life Member.

We thank the Town of Petty Harbour-Maddox Cove for hosting this year's conference, all the local volunteers, and our conference presenters, for making this another successful conference. The WBMNL would especially like to thank Kimberly Orren who spent many hours organizing the events in Petty Harbour-Maddox Cove.

Special Events

3rd Only a Boat Fundraising Dinner and Auction

Our 3rd *Only A Boat Fundraising Dinner and Auction*, held on February 28th, 2015 at the Holiday Inn in St. John's, was attended by 215 loyal supporters. Corporate support for our event continues to grow – 15 corporate tables were purchased and another 14 organizations purchased tickets to the event. Guests were treated to a fun filled evening and they opened their pocketbooks to support the Museum.

Our Dessert Auction was once again a huge hit – TriNav Group of Companies came out on top this year and had first pick at the dessert table. A huge thanks to all who donated desserts – they were truly works of art!

The Museum also thanks artists who donated their work for our Live Auction – Nathaniel Noel (soapstone sculptures *Maternal Instinct* and *Whale at Sunset*), George Horan (*Iceberg Adrift near Elliston*), Kevin Coates (*Fisherman at Stages*), Heather Wareham (*Geometric Hooked Rug*) and Glenn Mitchell (*Whales and Sails*).

Melvin Green and Mark Hiscock took the stage and performed before we auctioned our “Kitchen Party”. The Museum hosted the Kitchen Party in Winterton on June 27th – two groups purchased 12 tickets each to the event. The event began with a Wine and Cheese reception at the Museum, followed by an evening of food, drink and entertainment.

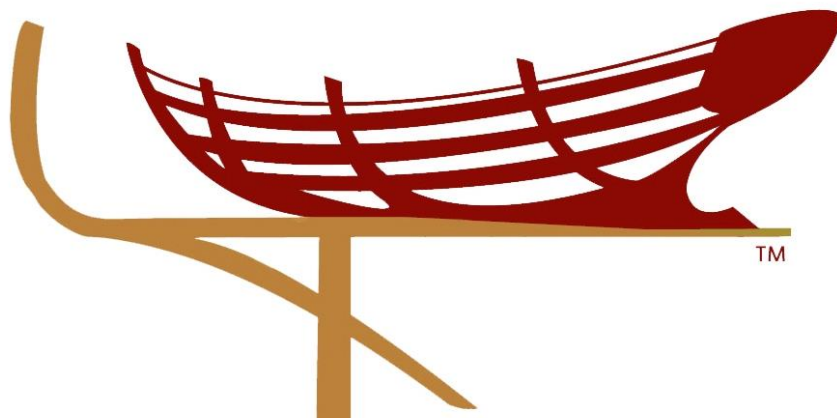

The Museum expresses our sincere thanks for support from our corporate Table Sponsors, Gala Committee, Wayne Bartlett (auctioneer / MC), volunteers, donators of auction and raffle items and all attendees.
